Halfway between Key Largo and Key West, sits 1,000-acre Curry Hammock State Park and is the largest uninhabited parcel of land between Key Largo and Big Pine Key. The park protects large areas of mangrove swamp, rockland hammocks and seagrass beds essential to the Florida Keys ecosystem. The park is an ideal destination to kayak and paddleboard, and with the Atlantic Ocean as a backdrop, it's easy to understand why this stunning plot of land was left as nature intended.
