Haw Creek Preserve State Park offers a serene paddleway on a pristine blackwater creek through an old Florida cypress swamp that leads to Crescent Lake. Donated to the state in 1976, this preserve is a refuge for native wildlife in rapidly developing North Central Florida. The park contains 7 distinct natural communities, including forests, hammocks, flatwoods, marshes, swamps, and a blackwater stream. The name "Haw" comes from a flowering shrub that grows along the banks of the creek.
