Deeply involved in his adopted community of Apalachicola, serving as postmaster, city treasurer, town councilman, and bank director. By 1841, concern for his yellow fever patients motivated Gorrie to invent a method for cooling their sick rooms. He became a pioneer in the field of air conditioning and refrigeration by inventing a mechanical device that produced ice. Dr. Gorrie received the first U.S. Patent for mechanical refrigeration in 1851.

Today, a replica of his ice-making machine and other Gorrie artifacts are on display at the museum. The park is also proud to showcase temporary exhibits chronicling the history of The Florida Park Service, which plays a vital role in preserving and interpreting *the Real Florida!*

FLORIDA STATE PARKS

A MAJOR CONTRIBUTOR TO FLORIDA'S WELL-BEING!

The system of Florida State Parks and Trails is one of the state's greatest success stories. It's the ONLY system in the nation thrice awarded the Gold Medal of Excellence by its national peer group. Florida residents and, visitors from around the world, are drawn to Florida's state parks and trails as *the places* to hike, bike, kayak, swim, fish, camp, lay on the beach, hunt for shells, learn about nature and Florida history, have family reunions, and even get married! Plan your visit at FloridaStateParks.org.
